

II

(Non-legislative acts)

REGULATIONS

COMMISSION IMPLEMENTING REGULATION (EU) 2021/1158**of 22 June 2021****on design, construction and performance requirements and testing standards for marine equipment and repealing Implementing Regulation (EU) 2020/1170**

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Directive 2014/90/EU of the European Parliament and of the Council of 23 July 2014 on marine equipment and repealing Council Directive 96/98/EC⁽¹⁾, and in particular Article 35(2) thereof,

Whereas:

- (1) The design, construction and performance requirements and testing standards in respect of marine equipment falling within the scope of Directive 2014/90/EU are provided for in international instruments defined in Article 2(5) of that Directive.
- (2) In order to take into account the most recent changes, the list of the applicable international instruments should be updated. Marine equipment which has become subject to harmonised Union requirements under Directive 2014/90/EU following changes to international instruments, should be explicitly listed.
- (3) Commission Implementing Regulation (EU) 2020/1170⁽²⁾ should therefore be repealed.
- (4) It is reasonable and proportionate to allow a transitional period during which a new item which is in conformity with the national requirements for type-approval in force in a Member State before the entry into force of this Regulation, can continue to be placed on the market and on board an EU ship as defined in Article 2(2) of Directive 2014/90/EU.
- (5) In order to facilitate a harmonised, rapid and simple implementation of Directive 2014/90/EU, implementing acts adopted pursuant to that Directive should take the form of Implementing Regulations.
- (6) In order to allow the marine equipment industry and other stakeholders to adapt to the measures provided for in this Regulation, this Regulation should enter into force 40 days following its publication in the *Official Journal of the European Union*.
- (7) The measures provided for in this Regulation are in accordance with the opinion of the Committee on Safe Seas and the Prevention of Pollution from Ships established by Regulation (EC) No 2099/2002 of the European Parliament and of the Council⁽³⁾,

⁽¹⁾ OJ L 257, 28.8.2014, p. 146.

⁽²⁾ Commission Implementing Regulation (EU) 2020/1170 of 16 July 2020 on design, construction and performance requirements and testing standards for marine equipment and repealing Implementing Regulation (EU) 2019/1397 (OJ L 264, 12.8.2020, p. 1).

⁽³⁾ Regulation (EC) No 2099/2002 of the European Parliament and of the Council of 5 November 2002 establishing a Committee on Safe Seas and the Prevention of Pollution from Ships (COSS) and amending the Regulations on maritime safety and the prevention of pollution from ships (OJ L 324, 29.11.2002, p. 1).

HAS ADOPTED THIS REGULATION:

Article 1

The design, construction and performance requirements and the testing standards provided for in the international instruments defined in Article 2(5) of Directive 2014/90/EU shall apply to each item of marine equipment listed in the Annex to this Regulation.

Article 2

Implementing Regulation (EU) 2020/1170 is repealed.

Article 3

1. Marine equipment listed as a 'new item inserted by Implementing Regulation 2019/1397' in column 1 of the Annex, which is in compliance with the national requirements for type-approval in force before 3 October 2019 in a Member State, may continue to be placed on the market and on board an EU ship until 3 October 2022.
2. Marine equipment listed as a 'new item inserted by Implementing Regulation 2020/1170' in column 1 of the Annex, which is in compliance with the national requirements for type-approval in force before 1 September 2020 in a Member State, may continue to be placed on the market and on board an EU ship until 1 September 2023.
3. Marine equipment listed as a 'new item inserted by Implementing Regulation (EU) 2021/1158' in column 1 of the Annex, which is in compliance with the national requirements for type-approval in force before 25 August 2021 in a Member State, may continue to be placed on the market and on board an EU ship until 25 August 2024.

Article 4

This Regulation shall enter into force on the fortieth day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 22 June 2021.

For the Commission

The President

Ursula VON DER LEYEN

ANNEX

General note: references to 'SOLAS' Regulations refer to the provisions of the International Convention for the Safety of Life at Sea, as amended.

List of acronyms used

A.1, Amendment 1 concerning Standard Documents other than IMO.

A.2, Amendment 2 concerning Standard Documents other than IMO.

AC, Amending Corrigendum concerning Standard Documents other than IMO.

CAT, Category for radar equipment as defined in section 1.3 of IEC 62388 (2007)

Circ., Circular.

COLREG, International Regulations for Preventing Collisions at Sea.

COMSAR, IMO's Sub-Committee on Radiocommunications and Search and Rescue.

EN, European Standard.

ETSI, European Telecommunication Standardisation Institute.

FSS, International Code for Fire Safety Systems.

FTP, International Code for Application of Fire Test Procedures.

GNSS, Global Navigation Satellite System.

HSC, High Speed Craft Code.

IBC, International Bulk Chemical Code.

ICAO, International Civil Aviation Organization.

IEC, International Electrotechnical Commission.

IGC, International Code for the Construction and Equipment of Ships Carrying Liquefied Gases in Bulk.

IMO, International Maritime Organization.

ISO, International Organisation for Standardization.

ITU, International Telecommunication Union.

LSA, Life saving appliance.

MARPOL, International Convention for the Prevention of Pollution from Ships.

MED, Marine Equipment Directive.

MEPC, Marine Environment Protection Committee.

MSC, Maritime Safety Committee.

NO_x, Nitrogen Oxides.

O₂/HC systems: Oxygen Hydro Carbon systems.

SOLAS, International Convention for the Safety of Life at Sea.

SO_x, Sulphur Oxides.

Reg., Regulation.

Res., Resolution.

Notes applicable to the whole of this Annex

- (a) General: In addition to the testing standards specifically referred to in this Annex, type-examination (type approval) requires compliance with the applicable requirements of the international conventions and the relevant resolutions and circulars of the IMO. Such compliance is referred to in the modules for conformity assessment in Directive 2014/90/EU.
- (b) Column 3: Where two sets of testing standards are separated by 'or', each set fulfils all the testing requirements to meet IMO Performance Standards; thus testing to one of those sets is sufficient to demonstrate compliance with the requirements of the relevant international instruments. On the contrary, when other separators (such as comma) are used all the listed references apply.
- (c) Column 6: In order to take into consideration the timeframes for shipbuilding, depending on the characteristics of the specific marine equipment, the term 'placing on board' shall be understood as meaning (as indicated in brackets behind the dates):
 - (i): first installation of the equipment in its functional position on board an EU ship;
 - (ii): first installation of the equipment in its functional position or stowing in its functional position on board an EU ship;
 - (iii): delivery of the equipment to the shipyard if this takes place within 30 months before the first installation of the equipment in its functional position.
- (d) Where there are two rows for one marine equipment entry (e.g. MED/1.3), the second (lower) row contains the updated requirements of the international instruments in respect to the ones shown in the first (upper) row.
- (e) In the situations referred to in point (d) where no date is given in columns 5 and 6, this indicates that there has been no change in the testing standards and that the marine equipment item concerned shall comply with the requirements indicated in the (second) lower row.
- (f) Where there are more than two rows for one marine equipment entry (such as MED/1.2a), the lowest row contains the updated requirements of the international instruments in respect to the ones shown in the upper rows.

1. Life-saving appliances

Column 2: IMO MSC/Circ.1628, IMO MSC.1/Circ.1629, IMO MSC.1/Circ.1630, IMO MSC.1/Circ.1631, IMO MSC.1/Circ.1632 and IMO MSC.1/Circ.1633 shall apply where appropriate except when superseded by the specific instruments referred to in Column 2.

5. Radio-communication equipment

Notes applicable to section 5: Radio-communication equipment.

Column 3: In case of conflicting requirements between IMO MSC/Circ.862 and the product testing standards, the IMO MSC/Circ.862 requirements shall take precedence.

Column 3: In case of conflicting conditions, requirements and tests between Table 5 and Table 6 of IEC 60945 and other listed standards (i.e. ETSI standards), the IEC 60945 conditions, requirements and tests shall take precedence.

Number and item designation	Regulation SOLAS 74, as amended, and the relevant resolutions and circulars of the IMO, as applicable	Testing standards	Modules for conformity assessment	First placing on the market	Last placing on board

9. Equipment for which the set of standards for MED certification is not complete

Note applicable to section 9:

A set of standards for MED certification is deemed to be complete where:

IMO Provisions for:

- type approval,
- carriage requirements, and
- testing standards

are available and appropriate.

1. Life-saving appliances

No.	Item designation
MED/9/1.1	Radar reflector for liferafts
MED/9/1.2	Immersion suit materials
MED/9/1.3	Float-free launching appliances for survival craft
MED/9/1.5	Public address & general emergency alarm system (when used as fire alarm device item MED/3.53 shall apply)
MED/9/2.3	Equipment using other equivalent methods to reduce on board NO _x emissions
MED/9/2.4	Equipment using other technological methods to limit SO _x emissions
MED/9/2.5	On board NO _x analysers using a measurement method other than the Direct Measurement and Monitoring Method of the NO _x Technical Code 2008

2. Fire protection equipment

No.	Item designation
MED/9/3.8	Electric safety lamp
MED/9/3.9	Protective clothing resistant to chemical attack
MED/9/3.13	Compressed airline breathing apparatus (High Speed Craft)
MED/9/3.21	Paint lockers and flammable liquid lockers fire extinguishing systems components
MED/9/3.24	Portable Foam Applicator Units
MED/9/3.26	Gaseous Fuel Systems Used for Domestic Purposes (components)
MED/9/3.27	Fixed Gas Fire Extinguishing Systems (CO ₂) components.
MED/9/3.31	Water Spraying Hand Operated System
MED/9/3.33	Fire hoses with diameter > 52 mm

3. Navigation equipment

No	Item designation
MED/9/4.11	Combined GPS/GLONASS equipment
MED/9/4.20	Track control system for - high-speed craft
MED/9/4.33	Track control system (working at ship's speed from 30 knots and above)
MED/9/4.37	Electronic Inclinometer
MED/9/4.66	Nautical publications in digital form as defined by SOLAS V 27

4. Radiocommunication equipment

No	Item designation
MED/9/5.8	Aeronautical two-way VHF radio telephone apparatus - Moved to MED/5.16

5. Equipment required under COLREG 72

No	Item designation
MED/9/6.2	Sound signal appliances
MED/9/6.4	Two-way voice and data communication with a Telemedical Assistance Service (TMAS)
MED/9/6.5	Sound signalling system mounted to face astern to indicate escort and emergency manoeuvres

6. Other safety equipment

No	Item designation
MED/9/7.1	Loading instrument
MED/9/7.2	Water level detectors on bulk carriers

7. SOLAS Chapter II-1 equipment

No.	Item designation
MED/9/8.1	Cold weather starting of generator sets (starting devices)
